Chief Seattle Council Program & Training Conference on October 19, 2019.

My name is Keith Potter

I'm an Assistant District Commissioner for Kitsap District

I'm here playing hooky from the Council Fireside chat.

## Approve Applications on My.Scouting Mobile App!

National 08/27/2019

Unit Leaders can now approve online applications in the Mobile app. Download the latest MyScouting app update at Google Play Store or the App Store. A previous release allowed leaders to take action on leads in the Mobile app.

## Commissioner Tools Update

National 06/20/2019

The following improvements have been implemented into My.Scouting:  
Detailed Assessments for Exploring Units are now available.

## Recent Updates

National 05/23/2019

### Member Manager

A new Unit-based Membership Totals Report is available for the council and district. The report includes all traditional units and Exploring units and generates youth and adult counts by gender. The report counts primary registered positions.

Proof this training is not from 2014

It all begins with the Menu

I think I'll take the salad with Ranch dressing please.

My Training:

The summary of what you thought you did last summer and then realized someone forgot to enter in BALOO the class room version and now your stuck with a truck full of tents and a bunch of kids while some troop advancement chair is standing in front of you stating....

“ You know better than showing up without the health forms and activity permission slips signed”

## My Profile:

The place where two people working at the council registration office put all that information you filled out in the adult application.

This is where you realize when other people read your handwriting it really is like you should have been a doctor as the pharmacist is trying to tell the difference between a.set.of.ten.men and acetaminophen.

Empowering you to deliver the Scouting program.

My Account:

The information you put in so you could do the online YPT training then forgot your password.

You tried to reset your password and had to wait on the phone with member care for an hour because no where did it tell you that you were not allowed to change your password twice in the same day.

The lady at the other end just told you she's got this.

"Go to bed tonight hon, just relax when you wake up tomorrow it will be all better. I promise. While you are sleeping we will get this all worked out."

My Application:

The status page for any online applications you submitted.

This serves as the progress reminder that you chose to spend more than just one hour a week in scouting. This is why, where it states in the Background Check addendum “Company may obtain a consumer report on you to be used for employment purposes” (in your case, this means you as a volunteer) kind of hits home.

# Nuts and Bolts

My Recent Tools

This item acts as a sort of quick link collector of the things you incorrectly clicked on the last few times you were in the tool and for some reason it's in this list so it must have been what you wanted the first time let me click it again and say Nope that's not what I wanted in the first place all over again.....

## Nuts and Bolts

Resources used to be the Documentation

Moving to the Content management solution (CMS) most of the documentation is being moved to SharePoint (scouting.org) so this box has been vacant for a while as the forms, guides, policies, etc. have moved there.

There? Where?

Oh, There.

Web Page introduction is  
done.

Yep there's an app for that

Information about me.  
You ask Why?

Once I was out camping and I needed to prove that I was trained and that my YPT was current. I opened this app and went to this page, not realizing when I logged it had already told me what I was fumbling around on this page for

all the why back at the home page.

Ah yea there it is..... I knew it was here somewhere....

# My Position is a Commissioner

This page will be about your role in the unit. It is based on your registered position.

It tells me what the status of the units are and allows me to record what I'm responsible for, so that other Commissioners know what the program is doing.

Presented with the same information just represented in a different way.

## New MyScouting Mobile App is Available!

National 10/10/2017

A new myScouting Mobile App is available now for both iPhone (iOS 9.0 or greater) and Android (4.4 or greater) devices. **Search for “myscouting” in the App Store or Google Play and download it today!**

The new app features include:

- Access to training resources and take courses including **Youth Protection Training\***
- Track training completions
- Download or send by email completed training certificates
- Communicate with members within your organization level and below (for Key 3s and those having that access)
- Manage your profile
- Post and manage announcements and calendar events for your organization
- Access several Commissioner Tools

More features and updates will be added in future releases.

**\* NOTE:** If logging in to my.scouting.org website from a Mac or mobile device using Safari’s latest version 11.0 (not the MyScouting Mobile app), there is a known issue where the YPT video/audio may not work. Below are the steps to resolve in Safari:

1. Open Safari, click Preferences in the Safari drop down in the top left of the screen.
2. Go to the “Websites” tab, click “Auto-Play” under General - my.scouting.org should appear.
3. Select “Allow All Auto-Play” from the drop-down box.

Lets start here.

For most of you this may be pre-populated by your predecessor

You will need to verify it is correct

Can be as easy as selecting the drop down

Ensure this portion is the name of a person whom will be responsible for your Unit's contacts.

Recommendation is Cubmaster or Scoutmaster or committee member such as New Member Coordinator.

The COR may not have all the information needed when someone is reaching out to you through <https://beascout.scouting.org>

This field pre-populates for the Scouting commissioners in your area of whom is the unit member that can be reached, AND New families aka "Contacts" will receive an automated message when they inquire through beascout.com. This is the information sent to them.

To the right now we have this quadrant

When the Latitude and Longitude is to be entered simply verify that address by going to [maps.google.com](https://maps.google.com) and in the address to find bar place the lat # then ", " then the Long # example 47.5621084, -122.6663964

This will mark the place on the map for where your unit is on [beascout.scouting.org](https://beascout.scouting.org) We have found some people with this incorrect and as a result they are not gaining contacts as the Pin of the map does not show up when searching for units in their area.

Upload your Scouting Logo or use a basic selection

Enter the physical address where you meet. This is **not** to be where your **Chartered Organization** is located **but** that **actual address** of the place **where you hold your meetings the most.**

Example:  
Meetings for girls Mon-Thur 6PM  
Meetings for boys Mon, Wed, Fri 7PM  
All grades K-5<sup>th</sup> available

By not telling people where and when you meet you are turning away contacts as many do not want to have to email every group on [beascout.scouting.org](https://beascout.scouting.org) just to find out if that schedule meets the contact needs.

# Reviewing Application

The screenshot displays the 'myScouting' Application Manager interface. At the top, it shows 'Application Manager' and 'myScouting' branding, along with a user greeting 'Welcome ERIC GUZMAN'. The main content area is for 'Pack 0093 Cedar Bayou Grace United Methodist Church'. It features two summary cards: 'IN PROGRESS APPLICATIONS' with a bar chart showing 17 applications in the 0-4 days range, and 'NEW APPLICATIONS' showing 17 new applications. A 'COMPLETED AND CLOSED APPLICATIONS LAST 30 DAYS' section is also present with a 'Reports' button. Below these are navigation tabs for 'My Actions', 'Youth', and 'Adult'. The 'Applications' section shows a list of 12 total applications, with the first five listed as 'Pending Acceptance' for Pack 0093. Each entry includes the applicant's name, email, and phone number.

- A. BSA IT angle (We are modernizing! Here is what you can now do online... etc.)
- b. Intro to what's coming and how to be prepared (IT roadmap and completion of Old tech to new tech)
- c. What can the unit/District/Council do now, Empower the unit volunteers for data access, information and use the tools. (talk em up to make them feel that the volunteers are part of the solution) based on permission levels the who to get to help with what saving the Council / DE phone calls.

Running reports and query is big data. Who is trained, the units want that back in Scoutbook where it was very useful to those that used scoutbook. Same thing for troop web host. Why, because it was an automated push and not a manual pull. It allowed the unit level to have visibility in not only who but or when and gave notification to the progress. Now you only know when it's pulled. It was chosen by BSA IT to have adult training pulled out. I suspect as it required a lot of SQL space to manage. Won't get BSA IT to admit the real reasons.

[Blueprint and Timeline \(Learn More\)](#)

## Where are we?

- 20 year old technology
- Limited knowledgeable staff to support technology
- Training materials have not kept pace with software changes
- High operating costs
- Ongoing MS-Windows security patches and browser upgrades threaten technology usage
- Many internal software components are not the latest; some are no longer supported
- Our recovery time in a failure could be slow and have significant cost

## How did we get here?

- ScoutNET was developed by BSA in 1998/1999 timeframe
- Prior to ScoutNET Councils supported hardware and software in their offices
- ScoutNET provided insight into consolidated data and management reporting
- The adoption of ScoutNET was painful and presented a steep learning curve
- Ongoing funding for software support has limited enhancements and restricted support
- Compliance with legal requirements and urgent business needs is difficult

## Focusing on the Right Things

Answers to these 4 key questions keep us focused:

- Will it eliminate our legacy systems?
- Does it fit into the BSA Game Plan?
- Is it a compliance or legal requirement?
- Does it help a council increase membership?

## Vision for the future

- Make our volunteer and staff Scouting experiences easier
- Deliver Products that are intuitive and easy to use
- Create Products that work on mobile phones and tablets
- Deliver Products that meet compliance requirements for Personally Identifiable Information (PII) and the Payment Card Industry (PCI)
