

RT March 2022: Camping

Opening Skit:

We come walking in, like we're out hiking.

Eric: point and say something like "Oh no! A bear!"

Wendy: dig in backpack and say "Good thing I brought my running shoes."

Eric: "You're not fast enough to out run a bear!"

Wendy: "I don't have to be faster than the bear. I just have to be faster than you."

We're off to a fast start here tonight at Round Table!

Welcome

Camping helps packs pass off a lot of stuff:

2022 Journey To Excellence:

http://www.scouting.org/filestore/mission/pdf/2016_JTE_Pack_Scorecard.pdf

#6 Outdoor Activities: dens participate in 3-5 outdoor activities or field trips

#7 Day/resident/family camp: Cub Scouts attend day camp, family camp, and/or resident camp.

Camping requirements in other Awards:

National Den Award: as a den attending day camp or resident camp, with 50% attendance.

Outdoor Activity Award: basic requirement to attend day camp or resident camp. Attend a pack overnighter; participate in an outdoor campfire program are other outdoor activities that can contribute to earning the award.

Summertime Activity Award - Participate in a pack event in June, July and August. Ideas:

June - Crossover Pack Meeting

July - Resident or Day Camp

August - Raingutter regatta/Water Day or Launching Rockets

Journey To Excellence for near future:

Gold JTE #9: Pack & Den Meetings: Achieve Silver, plus earn the Summertime Pack Award.

Edible Campfire Instructions (building campfires, safety guidelines):

Build your campfire in the proper place -- an existing fire ring (paper towel). If there is no fire ring, use a fire pan on rocks, sand, or inorganic soil to minimize environmental impact.

Downed, dry wood should be gathered from a wide area. Don't break branches off trees or use green wood. (Minimizing environmental impact.)

Have your tools ready nearby: water (cup) and rake or shovel (fork or spoon).

Start with a fire circle of rocks (malt eggs).

Make a lean-to by leaning tinder (baked veggie snack sticks) against a log (carrot).

Light the tinder with a match (tooth pick). Add a small flame (candy corn).

Add kindling to the lean to, leaving room for air to flow. Add more candy corn flames.

As the fire gets bigger, you can add bigger wood.

Don't burn trash or food – it can attract animals. (Minimize environmental impact on wildlife.)

When a real fire is done, you would use water to put out the flames. You would stir up the ashes using a rake or stick (fork) until everything is cold. We get to drink the water, and eat our candy fire.

Tip: to prevent flaming marshmallows (and the hazards they create), challenge the boys to create the perfect toasty marshmallow. Have an adult demonstrate. Award small prizes for perfect roasted marshmallows. If making s'mores, give the boys a small amount of chocolate for their s'more. If they roast a perfect marshmallow, give them more chocolate. The small amount of chocolate they get at the beginning creates a powerful incentive to roast a perfect marshmallow.

S'more Neckerchief Slide:

For the graham crackers, cut cork board into squares, 1" - 2". Draw a line and dots on one of the cork squares to make it look like a graham cracker. For the chocolate, cut dark brown foam into squares, 1" - 2". Hot glue a piece of chocolate to one of the "graham crackers", then glue a cotton ball "marshmallow" onto that. Hot glue the decorated "graham cracker" to the cotton ball, decorated side up. Twist a chenille stem into a 1" circle. Cut a small strip of light brown felt that is a little smaller than your "graham cracker." To make the loop for the tie slide, put the chenille stem on the underside of the bottom "graham cracker". Hot glue the felt piece in place, sandwiching the loop between the "graham cracker" and the felt piece.

Solar S'mores: <http://www.stevespanglerscience.com/lab/experiments/solar-oven>

Roasted Marshmallow "Shaggy Dogs" How To Book p. 4-38.

Microwave S'mores: Put graham cracker on a microwavable plate. Top with chocolate chips. Microwave for 20-30 seconds, until chocolate chips are just starting to melt. Put marshmallows on top of the chocolate chips. Microwave for another 10-15 seconds, until the marshmallows are big and puffy. Top with another graham cracker, let cool, and eat.

S'more Brownies:

Press on marshmallows to spread them out after broiling. But be sure to leave space between them to make cutting easier. (Marshmallows stick to knife.)
